# THE SINK POD

## RHINO-PODS

Your full camping kitchen.

Sturdy and stable, yet easy to assemble and dismantle for storage. With your choice of silicone or stainless steel sink. Indoor or outdoor use. Water and waste on board. Self-powered tap. Preparation area and space for two generic burners. This is the complete kitchen solution for camping, van living or as an outdoor kitchen.

**STRONG:** Your Sink Pod is made from a durable, unique and extraordinary material. Highly resistant to weather, heat, chemicals and easy to clean.

**STURDY AND STABLE:** Good usability is one of the important features of the Sink Pod. It is very different to foldable aluminium and cloth kitchens which are extremely unstable.

**EASY TO ASSEMBLE AND DISASSEMBLE:** thanks to our unique integrated 'click-lock' system – no screws or bolts to struggle with or lose. If you intend to dismantle your Sink Pods often or want to minimize storage space – we recommend the silicon sink option.

**WEIGHING 20kg:** Your kitchen is extraordinarily light yet hard wearing and robust for a lifetime of use with our lifetime guarantee

**FLEXIBLE:** With room for 2 general gas burners, a sink with water and drain, and a preparation area, this is truly a kitchen you can set up whenever and wherever you want to prepare and cook indoors or out.

**BUILT TO LAST:** Using high quality materials and mostly stainless steel fittings, your kitchen is built to last. Made in Italy and the UK, means easy lifetime access to spare parts and support.

**Weights only  
20 kg**

**Strong flow at  
0.5L/min**

**Easy to clean**

**Resistant up  
to 150**

**Weather and  
waterproof**
