

**YOUR
OUTDOOR
COOKING
ADVENTURE**

WWW.RHINO-PODS.COM

WEATHER, WATER, CHEMICAL AND UV RESISTANT

Our pods are made of extraordinarily tough stuff. This amazing material can be washed, even jet washed. It is chemical resistant and weighs far less than plywood or other materials yet is also heat resistant to 150 degrees Celsius (in real terms it is fine to stand boiling hot pans on).

BUILT TO LAST

Using high quality materials and stainless steel fittings, your kitchen is built to last. Made in Italy and the UK, means easy lifetime access to spare parts and support. Plus we give a lifetime guarantee that we will replace any defective parts free of charge for the lifetime of the product

Rhino-Pods are made from a unique, extraordinarily durable, material which won't split, swell or splinter. They are suitable for extended outdoor use.

OUR CLICK-LOCK SYSTEM

Our unique and exclusive click-lock system means that we can offer pods that can be easily dismantled and reassembled without tools. Yet they are also strong and firm. When they 'lock' into position they make the pod strong and stable. They will last a lifetime – and we guarantee that as they have been tested up to 40,000 times.

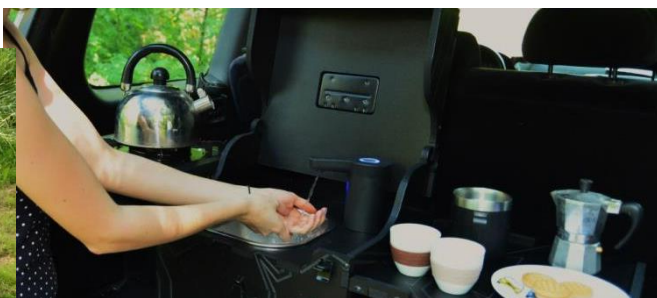

✓ TESTED TO 40,000 OPERATIONS

✓ QUICK AND EASY ONE FINGER OPERATION

✓ UNIQUE PATENT PENDING DESIGN

✓ NO NUTS OR BOLTS TO LOSE

✓ STRONG, STABLE AND SECURE

THE CUBIT POD

RHINO-PODS

Small, light and easy-to-carry, the highly portable Cubit kitchen is perfect for tailgating, van life, camping, work vans, RVs, truckers, remote work places and outdoor adventures. Functional and flexible, with integrated sink, self-powered tap, chopping board and integrated 5L water and waste containers. The side tables give space for two generic stoves, plus the fold back lid gives you additional space. It's folding handle makes this totally independent kitchen easily portable. Set up whenever you want, wherever you want.

Included with your pod:

- Stainless steel sink
- Polypropylene chopping board that fits in the sink
- Cordless rechargeable tap
- Matching 5L water and waste bottles

Using high quality materials and predominantly stainless steel fittings, your Cubit is built to last. Made in Italy, this means easy lifetime access to spare parts and support.

Your Cubit is made from a durable, unique and extraordinary material. Easily resistant to weather, heat, chemicals and is easy to clean. It can even be jet washed!

Weighing only 15kg and extraordinarily compact, with a sturdy integrated carry handle you can take your Cubit anywhere you want.

WHO ARE WE?

We love the outdoors and especially dining alfresco. Casual relaxed time dining in nature with friends and family has made some of the best memories for us.

When we talk about dining outdoors the word "alfresco" really describes the delights outdoor dining provides, it captures the essence of enjoying the outdoors and the natural environment. Whether that is at the beach, on a trail, hiking, fishing, climbing, biking, walking or just in your backyard or garden.

We wanted a way to get away when the thought occurred. We wanted to get ready in an instant so we could get up and go at a moment's notice before the impetus was lost.

We realised that the effort to plan, gather, setup and prepare for your alfresco adventure was all too often the barrier to realising and enjoying your next alfresco adventure.

Rhino was made to help!

Rhino helps realise the alfresco adventure. Kitchen pods that are ready to go whenever the outdoors calls. Keep them stocked with basics so that you just have to load up and go. This really is cooking for adventure

Life should be an adventure – best start the adventure now!

We are a small family business, hands on for everything from design to manufacture; we even do our own photography and artwork. We test every pod prototype ourselves and check the designs 'in the field' to make sure everything works the way it should do.

The attention to detail means that we can sell with confidence. It's not just a fancy 3D rendered image – we make real prototypes, test and modify them ourselves to make sure that you have the most hassle free and fun alfresco time outdoors.

Really good designs - that really work.

The beauty of nature is all around us. Join us, leave the hustle and bustle and spend time on an alfresco adventure with a Rhino Pod and realise what is important in life. Make great alfresco memories whether alone, with a partner or friends and family.
